The Disreputable Internet Pharmacy vs. Your Trustworthy Veterinary Pharmacy

Is there really a difference?

What's New:

- Here's the truth about those online pharmacies that so many people are now using. At Beckett and Associates, we feel that it is necessary to help you make the right decision for your pet.

When it comes to your pet, pharmaceutical needs are an important part of keeping them healthy and happy for years and years to come.

One of the more recent fads has been that of ordering your pets' medication online. It is a great idea; however, it is important that each pet owner realizes that where they do this online shopping can make a big difference in their service and support.

Not all internet pharmacies are what you may expect. Places like this do carry over-the-counter products and prescription medications. However, these products are not necessarily guaranteed by the manufacturer when bought through some of these types of internet pharmacies.

At Beckett and Associates we carry over the counter products and prescription medications that are of the highest quality and have added services. Our staff is continually being educated on each and every product that we offer. We are here to provide you with all the necessary information on the product, including administration/application, concerns, problems, and protocols.

Some of you may have already noticed that at Beckett and Associates, we do not authorize the use of our doctors' signatures for these types of pharmacies. This is our way to ensure that your pets are getting the quality of product that they deserve.

In turn, we offer a reliable alternative to these pharmacies at our online store. We highly recommend Vetstore, a place that deals exclusively with veterinarians. Together, we carry products that are essential to your pets' wellbeing with the added convenience of shipping. You can find a link to Vetstore on our homepage. On the left hand side, a link will appear. By clicking on Vetstore and using their services for your pharmaceutical needs, you can be assured that your pet is in good hands.
